Bessie's family left for the day and she couldn't wait to go see Bentley so he could tell her who needs help today! She ran as fast as she could and flew over the fence!

Bentley said, "hello Bessie! We only have one animal that needs help today. Kinley the turtle has her foot stuck under a rock in the creek." Bessie said "ok on my way!" and she took off

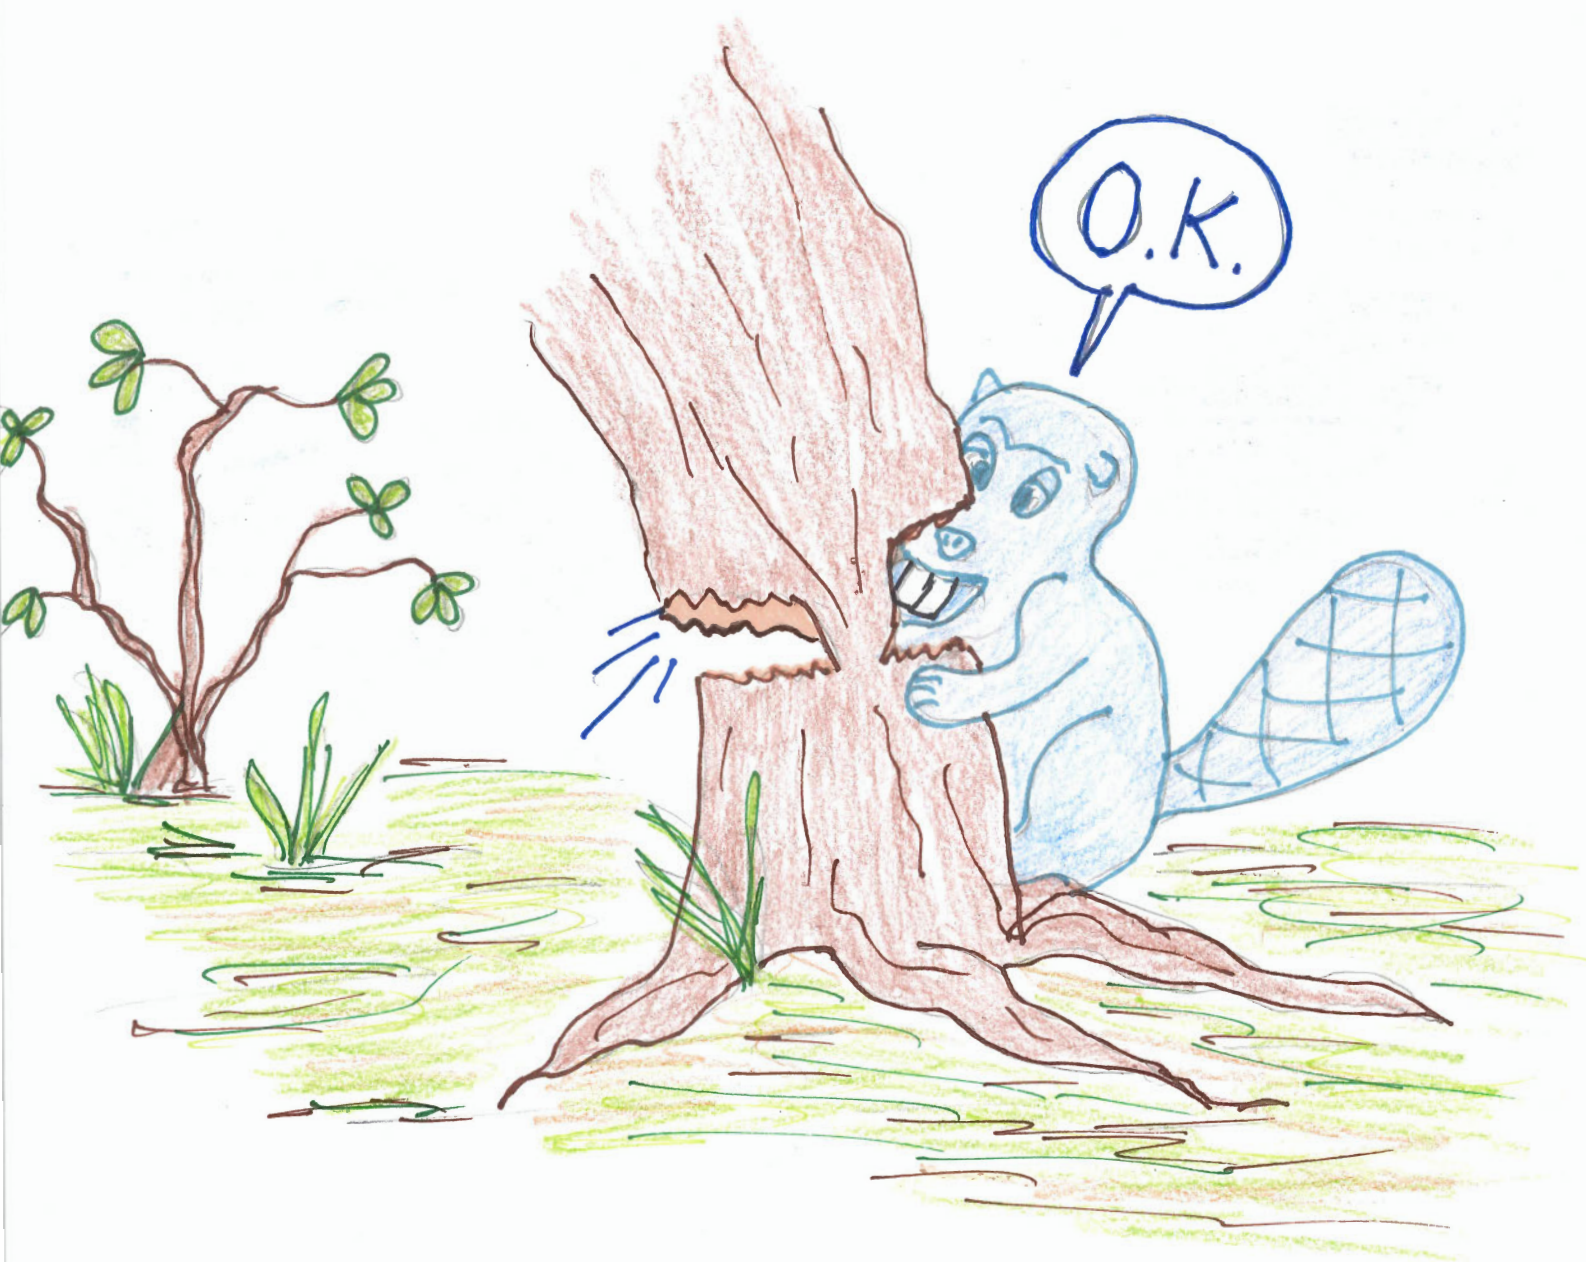

Bessie finds Kinley in the creek and her foot is really stuck! Bessie pulls really hard and the rock moved, but Bessie and Kinley fell back into the creek!

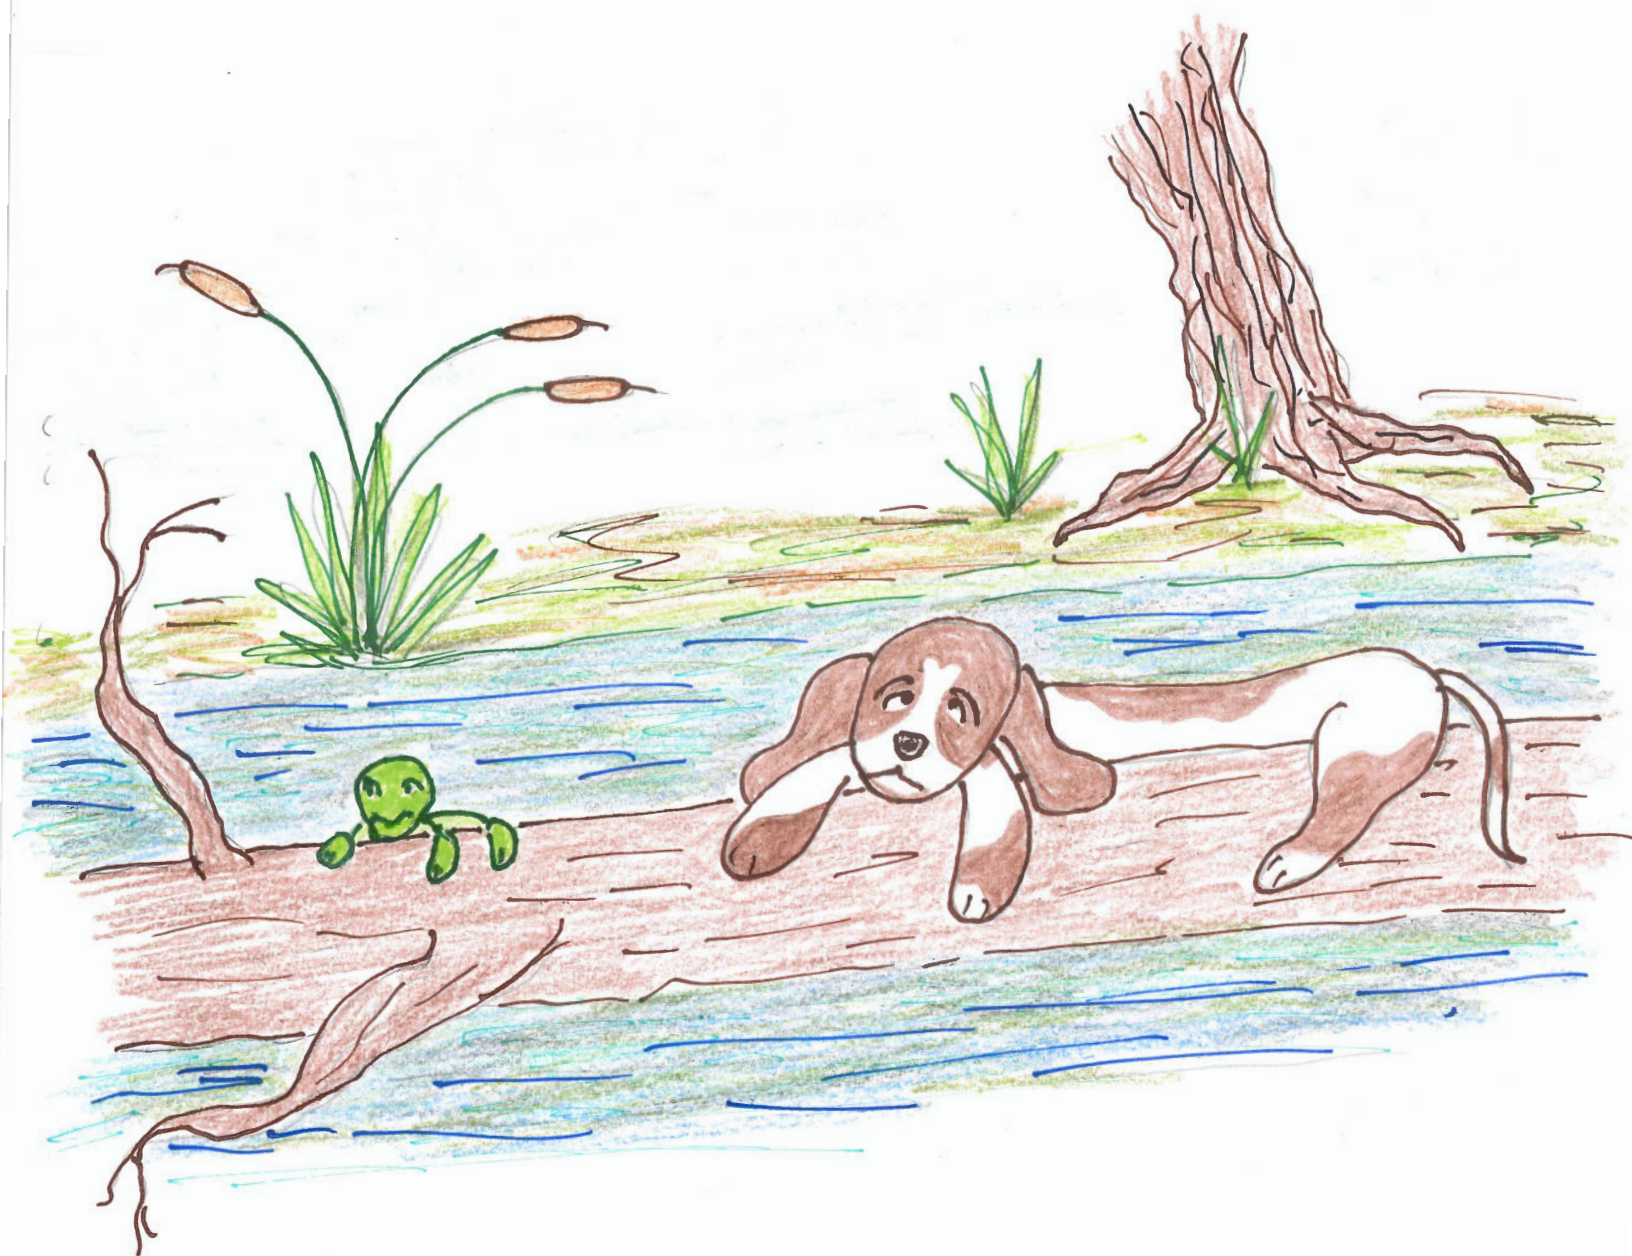

They got caught in the current and were swept away very quickly! Bessie and Kinley were screaming "HELP HELP!!!" as loud as they could.

Logan heard their cries for help and thought " maybe Willow the beaver can help I'll go get her!"

Logan found Willow chewing on a big tree. Logan yelled " Willow Bessie and Kinkley need your help! Can you drop that tree in the water so they can get on it? ! "

Willow chewed as fast as she could and the tree fell in the water just in time! Bessie and Kinley climbed on , but they were still going down stream fast!

Miah saw them going very fast toward the waterfall and wanted to help. She went to find the park rangers and flapped her wings until they followed her.

The rangers saw Bessie and Kinley. They said "get the boat quickly before they go over the waterfall!" By the time the rangers got back with the boat the tree had started over the waterfall!!!
