Dedication

This book is dedicated to our brothers and sisters worldwide who are grieved by the devastating loss of lives, some preventable, from the onset and protracted rampage of COVID-19. At this time of global purging, many feel helpless as they struggle with feelings of guilt, anger, blame and deceit at being robbed of the opportunity to say goodbye – to have closure with a much-loved relative, friend or acquaintance, prematurely snatched from the world's stage.

Although the pain lingers, tempered slightly by expanding vaccination coverage and wise use of mitigating precautions, the lingering sense of loss and unrelenting toll on our lives persists. What if I told you that your deceased loved ones are alive and well but now inhabiting the invisible, etheric, subtle world, surrounded by a retinue of relatives and friends they thought were dead or asleep? Read on if you can put aside your conditioning since birth and objectively hear this comforting story.

It is at times like these that we look inwards and outwards for answers, often blindly pointing to someone to blame; but humanity is one and we should look to ourselves for the cause of, as well as the solution to, our deep-seated problems. This is a critical moment of reflection as we realize we must chart a new pathway forward based on the fundamental, universal oneness of humanity and freely choose to share the abundant bounty of the planet. The other big priority we must urgently face up to is the underlying cause of much of our current suffering – the unrelenting abuse and poisoning of Mother Earth, for which we pay a high, unrecognized and unsustainable cost, by ignoring the unmistakable signs of our 'wrong relationship' with our planet. Our dear brothers from other planets (UFOs) clean up some of our toxic mess to keep the planet viable, although clear penalties and retribution are invoked under universal laws; it is the Law of Cause and Effect, or said in more scientific terms "for every action there is an equal and opposite reaction"; simply, the Law of Karma.

Finding reliable, trustworthy guidance and leadership on these fundamental, perennial questions is more difficult than we ever imagined, especially now, when many well-funded groups market in disinformation, half-truths and naked lies to conceal their true motives and confuse the public – to peddle a counter narrative from the sobering, sacrificing, liberating truth about our destiny, our failures, our difficult pathway forward. It is a not-so-shrouded attempt to gain and hold power, whatever the costs. We’ve witnessed this deception before, again and again, at major points of inflection where the trend curve flips, where the *Sword of Cleavage* makes clear our choices. But regrettably, we are no better shielded from illusion today than we were decades earlier, while the misinformation, distortion game has been ratcheted-up to fool even smart, rational people not normally so easily taken in.

Can the incorruptible guidance we seek be within our grasp and from a source we least suspect? Can our Elder Brothers – perfected ‘graduates’ of schoolyard Earth – be poised to step forward with sane, sober, trustworthy advice that They have been preparing to offer to us for nearly 100,000 years? The extraordinary answer is yes; and furthermore, They wanted to work alongside humanity decades earlier, but Their offer to make certain that everyone had proper food, adequate housing, health care and education as basic rights was rebuffed by mainstream media bosses as representatives of the people. Ultimately, the Great Plan was seen as a utopian ‘socialist power grab’ that would undermine and defeat our capitalist system. Sounds familiar? Indeed, this rationale has been a well-worn tool to prevent many progressive ideas, including clean energy, from widespread implementation. But this time, the will of the people of the planet cannot be averted, only slowed. Humanity’s free will is sacrosanct, but the majority of humanity wants this guidance and wants it now! Read on, but use your heart, higher mind and the soul to light your way, to distinguish truth from fiction.

Many ask who these Masters of life and self are, said to be members of the Spiritual Hierarchy – that kingdom above the human kingdom that we will all eventually ‘graduate’ into. You already know several

of these spiritual giants, but unlike Their followers, They work as a unit and do not disagree on the Great Plan for this planet and the laws and principles at work throughout the universe. These Masters include Jesus (formerly Joshua, Jeshua); Morya (formerly St. Peter); Koot Humi (formerly St. John, Pythagoras); Count of St. Germain (formerly Francis Bacon, Roger Bacon); Hilarion (formerly St. Paul or Saul); Serapis (the Egyptian Master); Jupiter (the Indian Teacher, oldest of the Masters); and others less well-known; plus Maitreya (depicted in the Bible as Enoch, Melchizedek), Head of the group of 63 Masters working behind the scenes influencing religious, scientific, social and cultural achievements on the planet. What might They say to us at this tumultuous period of upheaval, coronavirus, about wide divisions that ignore the inherent oneness of humanity? A lot, I assure you. Some 56 books have come from these Masters through disciples and high initiates you might recognize. The wisdom and intelligence They provide are sweeping in their transformative and galvanizing potential for our long-suffering humanity and the planet.

I have chosen to give an unworthy glimpse into a most provocative and compelling book called *Supermundane* from the next World Teacher, who speaks clearly and convincingly about the invisible, etheric, subtle world we inhabit between countless incarnations (births) into the dense physical world. He talks about the reasons epidemics happen; psychic energy (fire) and its enigmatic properties and its dangers; the vital work the Masters are engaged in 24/7; the amazing power of thought and thought forms; how we can avoid the loss of consciousness and memory of many things during the transition to the subtle world; and how the successive experiences in both worlds become unified over time, wherein “experiment, experience and expression are the keynotes” and the latent resident divinity becomes more apparent; how to better prepare our kids for the new world ahead; what children can teach us about the subtle world and why we often see deceased relatives before transitioning into the subtle world; and much, much more. The terminology becomes clearer as you proceed into the book and realize that you in fact experience both worlds during stages of sleep and awakening, during early childhood and later near transition (death), where you

can see deceased relatives. It will all make sense when you read this little book.

The Master who authored *Supermundane* talks about the dangers of inadvertently putting boundaries on our kids' thinking and the important lessons the Masters learn from Their visits to planets outside our solar system and the riveting accounts of what They see. They even give prudent advice on nutrition, health and wellness suggestions you might not wish to hear. I'm just sharing it for your consideration or dismissal. I have broken the material into bite-sized chunks that you can digest with sometimes a little help from your kids and grandkids (LOL!). Yes, your kids with their wide experience of smartphones and applications that can take a picture of your aura, and virtual reality devices that mimic the role of the soul, are very savvy in several areas of the invisible world. Of the approximate total 60 billion souls residing in both the dense physical 'everyday world' we know and the invisible subtle world we inhabit when we die, most souls incarnating (being born during this age) now possess skills and sheer audacity that are much needed at this time. So, read and talk about what you have read and the meaning you draw from it with our talented and courageous youths.

Remember that 15 of the Masters have taken their posts and soon will be introduced by Maitreya, the current World Teacher for this Aquarian age as well as the waning Piscean age. This highly anticipated event will change everything about life on this planet. The Masters feel humanity is ready for a deeper dive into the truths of the Wisdom Teachings, as well as the challenges they pose for those ready to roll up their sleeves and commence the hard but rewarding work ahead. The auspicious moment is almost here, at last. The Masters have been patiently waiting for the perfect moment in which to declare their credentials, intention and strategies for leading us back to our birthright and destiny – to become Masters, eventually gods in due course. I am talking again about our Elder Brothers of 'schoolyard Earth' – made up of the most evolved, perfected, gifted beings to grace this planet, who have emerged from their ancient retreats in the mountains and desert areas to demonstrate the divine potential dormant within each of us –

members of the Spiritual Hierarchy of this planet, that kingdom above the human kingdom that we will all eventually graduate into over time. Can the persistent signs be true that this group of 63 Masters is ready to enter the everyday world for the first time in 98,000 years, to work alongside humanity to help us solve our difficult but corrigible problems? You decide...

The media knows this statement to be true and has worked tirelessly to deny and undermine the most spectacular event in the long history of this non-sacred planet, poised to awaken from a pattern of behaviors that perpetuate division, nourish greed and fail to deliver the promised long-term solutions that will solve our most urgent problems. This formerly esoteric and comforting reassurance from our greatest spiritual giants will renew hope and create possibilities beyond our wildest dreams. So, get a comfortable chair and prepare to be inspired to ignore your fears and doubts. The Masters love us too much to abandon us in our hour of greatest need.

Introduction

This small treatise is aimed primarily at those individuals who have read at least an introductory book on the Ageless Wisdom Teachings. In my opinion, several books by Benjamin Creme can serve that orientation purpose; these are listed at the back of this book. But since many of you have not even heard of Creme or the other advanced initiates named below, I have attempted to provide an inadequate sketch of this extraordinary collection of intelligence from some of the most evolved beings to grace this planet – called Masters of life and self. My first companion book, entitled *Evolution of Humanity Unveiled: A Primer*, provides a deeper plunge into the basic premises underlying these important books that reveal information previously esoteric or hidden, awaiting humanity's rising evolution and expanded awareness to facilitate understanding and hopefully implementation of the Ageless Wisdom Teachings at whatever level you are capable of, for the common good. If this information resonates within you, it could signal approval from your soul of your readiness for a deeper understanding of occult, hidden intelligence of life on this planet and your capacity to achieve a higher level of service to humanity, the planet and the Great Plan of God.

These books are written by a highly evolved amanuensis (scribe/secretary) of Masters – who are 'graduates' of schoolyard Earth or members of the kingdom above the human kingdom to avoid infringement of humanity's sacrosanct free will. These high initiates or disciples have typically sacrificed much in life to help humanity achieve its birthright and destiny – to become Masters, eventually gods. If any of these fascinating Wisdom Teachings have found their way into your life, pause and investigate the material that could constitute a major turning point in your life. Although all the following books communicate vital information to better navigate life, some might constitute a plunge into the turbulent ocean without having mastered basic swimming lessons. But life is

not always so benignly crafted for maximum ease of preparation before a colossal event shakes the currents of life and we can sink or swim. The four initiates you should become familiar with are: Benjamin Creme (whose Master was anonymous), contributed 16 books (1923–2016) through Share International and is a good starting point for many in the western/occidental world; then we have the ‘blue books’ from Alice A. Bailey’s Lucis Trust library (1880–1949), 24 books (19 given through Masters Djwhal Khul the Tibetan, and Koot Humi, plus five she authored herself).

The other name who served as inspiration for this book is Helena Roerich’s *Agni Yoga Teachings* (14 books), lived from 1879–1955. She, like Helena P. Blavatsky who preceded her, was guided by Master Morya, although other Masters such as Koot Humi, and even Maitreya possibly also worked through her as a recorder (amanuensis) over time, according to Creme’s Master. Leaders within the Agni Yoga Society, however, disagree with the singular role of Helena, pointing out that she received no individual guidance from Morya while she was not with her husband Nicolas, the great painter and explorer. Even some eight years after his ‘death,’ she got no new messages from Morya, the Agni Yoga Society points out. Great minds can disagree but still work together on common goals for the betterment of humanity. The Masters Themselves will be available personally to provide clarity to this issue. I can only add that *Supermundane*, *The Call* and the majority of the *Agni Yoga Teachings* appear to reflect different writing styles, but I’m no expert on such questions. Specious accusations surfaced against Blavatsky, accusing her of plagiarism, in response to which she quoted Montaigne, saying: “I have here made only a nosegay of culled flowers and have nothing of my own but the string that ties them.”

The last great lady, who ironically gave the introductory teaching (1831–1891), is Helena P. Blavatsky, called HPB by her friends. Her seminal work *The Secret Doctrine* caused quite a stir in the late 19th century. Her Master was primarily Morya, although Djwhal Khul and Koot Humi assisted. What followed from an objective investigations of these teachings, at whatever depth you are willing

For Truth Seekers

to plunge, is a growing conviction of the elegant beauty of these esoteric teachings known as the Ageless Wisdom Teachings – an ancient wellspring of knowledge from which all our religious, scientific, social, and cultural enlightenment were derived, in addition to some new dispensations.

These high initiates, disciples of the Masters of Compassion and Wisdom, each communicated in different ways about a looming event unprecedented in history in which the Head of their group – members of the kingdom of souls – will emerge from their retreats in the mountain and desert areas to work alongside humanity. They will propose to council a deeply divided humanity to help it navigate the perilous crossroads we are now rapidly entering in which we could lose our way, creating devastating consequences, or choose correctly to follow their wise council and commence work on the greatest transformation ever envisioned on this inconsequential but awakening planet. Fifteen Masters, eventually 40, including Masters Jesus (formerly incarnated twice as Joshua, once as Jeshua), Rakoczi (Count of St. Germain, Francis Bacon, Roger Bacon), Koot Humi (St. John, Pythagoras), Morya (St. Peter, a Rajput Prince), Djwhal Khul (Tibetan Master), Hilarion (St. Paul/Saul), Serapis (the Egyptian Master), and Maitreya (Enoch and Melchizedek from the Bible, Metatron from the Kabbalah, Gesar from Tibetan text) – Who is currently head of the group of 15 now – will soon be working openly. This group and others less familiar to you will be working closely alongside humanity to help it navigate the way, if allowed to do so by the world. They cannot coerce humanity to accept their plan for the restoration of sane, incorruptible practices for those with eyes to see and hearts to feel, see and hear universal truths that will take us home to God.

The Hierarchy has been preparing to leave Their retreats in the mountain and desert areas of the planet to work alongside humanity for nearly 100,000 years. The final preparations began shortly after World War II, and the above books were sent out to help prepare humanity for the transformative event of the Externalization of the Masters, in which perfected beings will work beside humanity, for the first time in 98,000 years, to council and advise humanity, if

allowed, and together inaugurate the new Age of Aquarius – the age of synthesis – the fiery epoch.

Aquarian energies of inclusion, synthesis, and teamwork will have beneficial effects as they mount in potency and bridge perilous divides. Combined simultaneously with the emergence of our Elder Brothers/Masters, we will have the tools, knowledge, and guidance to attain our wildest dreams, but involving sacrifice and hard work; for even as humanity is being equipped with truth about its ancient history, its role in the Great Plan of God guiding our evolution and that of the lower kingdoms, the pathway forward is, nonetheless, fraught with many visible and invisible barriers, dead ends, and detours that could be missed by humanity, but not by our perfected Elder Brothers, who know the way. Their sight is keen and inclusive of all within the greater solar system, seen and unseen. Other urgent global issues are also emerging, demanding our best international efforts at collaboration and the trust that must exist for nations to successfully work across perceived boundaries to solve world problems.

Our home, Mother Earth, is being massively assaulted, poisoned, and sickened as never before, while loud alarms attempt to awaken us to the true magnitude of the damage that we inflict on the planet but also by extension to ourselves under the Law of Cause and Effect (karma). We can continue to ignore the piercing alarms of COVID, extreme weather conditions, costly historic fires, volcanoes and unrelenting hurricanes and other signals from nature, like the decimation of bees and the increasingly barren soils; insane waste disposal and shameful proliferation of plastics in our seas, plus the invisible but deadly toxic condition of the air – urgent challenges we must meet head on without further delay to avoid a calamity worse than the pandemic we are currently struggling under. Is it a coincidence that a primary feature of COVID is respiratory distress, while the planet entity itself struggles to breathe?

As the energies of Aquarius sweep into prominence, humanity is slowly being prepared for such a spectacular event that we will frankly believe it to be one of the many lies now so prevalent. Amid

For Truth Seekers

rising food and job insecurities, we are hunkered down in our homes looking inward as hundreds of thousands die too soon, while many defiantly refuse to take simple, prudent advice from top medical authorities to slow the spread. Can Dr. Fauci (Jan. 2021) be right in saying that the coronavirus will actually get even worse before it gets better? Many dispirited ones ponder, “So, when will life return to some normalcy?”, like a child impatiently wanting to know “Are we there yet?” on a trip. Many ask for any good news while some stupidly burn face masks and recklessly endanger themselves and others. That actually sensational great news, aside from the arrival of vaccines and the epic economic relief package, is almost here – namely the public announcement of a broadcast called the *Day of Declaration*, in which Maitreya, head of the group of Masters, will silently, telepathically (stream His thoughts to communicate with each person in their own language), share His credentials with all humanity above the age of 14, and tell a riveting story about our ancient history, the high point from which we have fallen, and the need to share Earth’s manifold resources to solve humanity’s most urgent problems.

Incidentally, the telepathic communication He will use is the same type of communication we use when we ‘die’ or transition into subtle bodies where we don’t have a vocal cord or tools of the dense physical vehicle. So, it’s not magical but, as vividly explained in Chapter 1, it includes other intelligence only a Master can provide.

These urgent problems we face are deep, pervasive, and long-standing, covered in more than 56 (Wisdom Teachings) books that many say are complex and difficult reading. So, I will attempt to help a little by providing a brief unworthy preview of some of the major assertions from these giants that will hopefully help you get started on your journey of discovery. Since we are so close to the *Day of Declaration* when Maitreya will silently address humanity, I will discuss certain conditions that you can see emerging in the world that are setting the stage for what is about to occur, while shining a light on elements of our shared past that have brought us to this crossroads. I ask only that you attempt to set aside bias and conditioning from birth and try to read this treatise as an objective

investigator before passing judgment on its relevance – that is more difficult than you imagine! Long-held positions might be shredded or contradicted, so take charge of your emotions until you finish this little book, then ask your heart and soul what pathway you should take – the one that promises to lead you back to the assured pleasures, promises and failures from the past, or chart a new pathway to the future that recognizes the oneness of humanity and the interconnectedness of all, yet also involves hard work, sacrifice, and sharing by everyone willing to do so. The choice is ours alone, but we will have truthful guidance and council from the best of humanity – the Spiritual Hierarchy of this planet – that kingdom above the human kingdom into which we will all eventually graduate.

One question I know that you must be asking is why it has taken so long for the spokesman for the Masters – Maitreya and His group of Masters – to step forward and save us from shattering division, wars, ourselves, and hopefully save our home, Mother Earth. He has worked most closely with Master Jesus, since He first emerged from His retreat in the high Himalayas into the everyday world in 1977, not by overshadowing a high initiate like Jesus (as He did 2,000 years ago) or Jiddu Krishnamurti (as previously planned), but by coming Himself. Understand that the Masters cannot coerce us to follow Their incorruptible advice. The free will of humanity is sacrosanct, so They must ask us for permission to advise and council humanity. They say we're gods, although we're not yet manifesting that inner divinity. They are referring to the 'dweller within' or the soul within us, the mini-God, as Maitreya calls it. Maitreya asks us not to identify so strongly with the personality vehicle that emerged out of the animal kingdom, but with the soul, the spark of God, the mini-God within you.

In a mysterious way, They assert that we are actually two beings in one – the personality or lower self that came out of a separate species in the animal kingdom, chronicled by Charles Darwin, and the soul or higher Self that is the 'dweller within' watching the unfolding drama from within the higher of the four levels of the mental planes. For the past 18.5 million years, the soul has been

For Truth Seekers

watching and teaching the personality or lower self to become a Master of life, which is our birthright and destiny. However, we are slow learners who fail to learn from our mistakes of the past; perpetuate ancient feuds and injustices surrounding race and ethnic identity (even as we have occupied all the various races over millions of years); bolster economic injustices perpetuating the haves and have nots; foster political extremism; nourish social and civil injustices; perpetuate gender inequity, though we have lives in both vehicles; retard or dismiss meaningful efforts at the reduction of poisoning of the planet, especially nuclear waste; sustain systems of division/separation, of disunity; favor competition over cooperation; foster an obsession with guns and violence; and nurture a high consumption of animal flesh (with injected growth hormones), combinations of sugar, and refined flour that erode our health and diminish our fitness as emerging gods. Could we possibly benefit from sober, sane, truthful advice from a group of unbiased, perfected Elder Brothers of humanity?

The answer appears obvious, so what is holding Them back at this moment of extreme peril? Would you believe me if I told you that a lot of the drama we're currently experiencing could have been avoided if the media (no, they're not the bad guys) had decided to grant Maitreya's simple request for an internationally publicized press interview with Q&A? Several attempts have been made by Maitreya and His group of Masters to schedule such a conference, without success, even after media sources initially approved the proposal upon seeing the crucifixion of Jesus as though they were there, met the Master Jesus, and were so spellbound they enthusiastically agreed to the press conference but later reversed their decision and rejected the proposal. It appears the media, as representatives of the people, learned of Maitreya's agenda, which is not clandestine, but has been articulated many times through press releases to media sources, such as CNN, CNBC, and the BBC, and on the Share International website and in its magazines; so, they determined that Maitreya's agenda of proper food, adequate shelter, health care, and education as basic rights for everyone was problematic!

That agenda, to many entrenched capitalists, sounded like a utopian dream, like scary socialism, to an economic system based on capitalism. For media leaders, this agenda sounded like the death knell of capitalism, even though Maitreya has said that it takes two wheels to move a cart and that He would advise a mix of capitalism and socialism – the preferred proportion being 30% capitalism and 70% socialism. When the media leaders learned of His “extremely liberal, incredible, socialistic” agenda, the media brass and owners backed away and politely declined His offer, so Maitreya and His group of the most enlightened and evolved Beings to grace this planet have been forced to take the slow route to gain the desirable percentage of humanity before they launch the *Day of Declaration*.

That number has already been achieved for decades now, awaiting the unfoldment of certain conditions and events on the world stage that will make Their appeal to humanity more favorable – such as an international stock market meltdown, unyielding political gridlock where nothing is accomplished, increasing division and competition instead of unity and cooperation, and the search for truth in a maze of lies, misrepresentations, illusions, and subterfuge. Can you see some of these conditions now? Maitreya and His group are patient, having waited 98,000 years for this great approach to humanity.

They have learned to wait for the most auspicious moment. Meanwhile, He and Master Jesus have been appearing incognito on radio and TV, at university campuses and other venues. Jesus even posed for the *Prince of Peace* painting done by 8-year-old child prodigy Akiane Kramarik (shown in the ‘Gallery of Pictures’ at the back of the book). Maitreya has appeared in the media at least three times that I know of, even de-materialized (vanished before their eyes), yet He is not impossible to recognize. Like the Count of St. Germain, He is able to speak 12 or more languages without any trace of an accent. He looks like a person from India or Pakistan, but He and Master Jesus often appear in disguises that are provided by the Devic population, what we call ‘angels,’ almost instantaneously. Many such encounters have appeared in *Share International* magazine and were authenticated by Benjamin Creme and his anonymous Master before Creme’s transition in 2016. I cannot help

For Truth Seekers

more than that. You will know Him by His priorities and His message. He is called the Lord of Love, of compassion, and you will experience that love, even physically, on the *Day of Days*.

I've had several encounters, which appear like Art School 'street theater,' where art students act out a scripted scene for fun and watch bystanders react. But these were not actors, and their aim was unclear initially. One encounter I had (most I did not bother to write-up and submit to *Share International* magazine editor Benjamin Creme for comment), which was validated and can still be found by googling *Share International* magazine 2012, Jan/Feb edition, and scrolling down to the Letters to the Editor. I experienced car trouble and did not have my cell phone with me, so I 'thumbed' for a ride home. My encounter is called 'The Good Samaritan.' What is amazing about this encounter is that in editing my letter, Creme, who lived in London, added details of the encounter that I saw no need to include in my letter to him. For example, he added, "I unthinkingly said I'll be seeing you around" upon exiting the salvaged vehicle, in addition to revealing what I was thinking when the kind young man picked me up. These were my thoughts and parting gesture when I exited the vehicle, but how did Creme know these details? The Good Samaritan had everything but the kitchen sink in his car – tools of every description and a black dog in the back.

He said, "I'm sorry I don't have room for you to sit up front, but if you don't mind sharing the back seat with my dog, I'll take you where you need to go." I thanked him profusely on the hot summer day between Greensboro and Winston-Salem, North Carolina. Anyway, Creme confirmed my guess that it was the Master Jesus! Oh well, take a look for yourself. I am just one among many hundreds of people who have had these amazing encounters with Maitreya and/or the Master Jesus to stimulate and reinforce our efforts in telling the public this extraordinary news the media appears reluctant to broadcast. I was struck by His eyes and kind, engaging, almost familiar persona. My brother had a similar but different encounter following our attendance at a Creme lecture at

the Pennsylvania Hotel in New York in 2004. We had natural highs for days afterwards when Creme was ‘overshadowed’ by Maitreya.

It is not my intention to go over the same ground covered in *Evolution of Humanity Unveiled*, as your time may be limited due to the current crisis and perhaps you’re distracted by the emerging horrific sadness and despair faced by so many of our brothers and sisters. So, I want to give you a big reason to have optimism and hope in the months ahead: we are headed into the home stretch of a particularly tumultuous period with amazing possibilities ahead if we desire it. We’ve witnessed some tenuous gains in our economic circumstances only to be quickly dashed by the emergence of COVID. Our fortunes can easily be reversed, so our food and job security, our freedoms, our trust and reliance on government leadership, and honesty, especially in a moment of crisis, cannot be taken for granted. All can come tumbling down in a frenzy of false placement of trust and a failure to realize the interconnectedness and interdependence of all things. We have an unfortunate tendency to forget past errors and misplacement of values in the short-term pursuit of self-interest and abandonment of our core guiding principles and laws that are, in fact, universal. The expansion of our consciousness or awareness is about inclusion, not exclusion; it’s about integration not segregation; it’s about synthesis not division. The Age of Aquarius is indeed about the energies of synthesis, and when we connect with the human family in truth and trust, like a member of an extended family, we open the door for benevolence, brotherhood, and lasting peace. The notion of wholeness extends to Mother Earth as well. Accordingly, we cannot use the planet as a dumping ground and not expect the rebounding consequences of karma, retribution, or cause and effect, such as pandemics, historic fires, violent weather, and other signals from nature.

Schoolyard Earth has much to teach us if we can only learn to listen with our hearts as well as our minds. Many do and many are stepping forward; even wealthy elite athletes are standing-up or kneeling-down with linked arms, galvanized by the energies of Aquarius to demand justice and fairness for all, not just those at the margins but all members of the human family who agree loosely

For Truth Seekers

with the point of view and priorities of the group above. All are enrolled in a curriculum that changes with each new incarnation (return to the earthly world from the invisible subtle world), and this cycle from the dense physical world to the invisible, subtle world lasts millions of years. Some sign up for a difficult life curriculum, while others want a break from the tedious Earth tensions and drama, and still others just want to be left alone, to have fun or goof off.

Free will cannot be diminished in the Earth school. The rules of the road, the universal laws and principles at play when violated (invoking karma) within the Earth school cannot be abated, not even by Masters, but they are usually delayed until a future lifetime to avoid interfering with our advancement, although for more advanced humanity the retribution is swiftly enforced. You can experience a fall after achieving membership in the Hierarchy and be forced to burn off the negative karma before resuming your prior point of evolution (PoE) before the fall. You can take as long as you wish to claim your rightful divinity, and you will soon see that divinity fully manifested by these greatest beings to grace this planet. They embody the divine possibilities dormant within each of us.

We approach that divinity when we establish meaningful contact and eventual union with, or what is called, ‘at-one-ment’ with the soul. Meditation, service, and study are the age-old royal road to union with your soul. The Transmission Meditation advocated by Creme incorporates a high level of service into the meditation process that can speed the evolution process, if you can tolerate and/or assimilate the high frequency energies involved and your soul judges you as ready. So, talk with your soul (the God within you) as though you are talking with God or Jesus or some other spiritual leader. Maitreya calls the soul the mini-God within you – that eventual contact and union leading to self-/God-realization.

This process of evolution or perfectment has been dramatized many times on the world stage through the story of Hercules, the Bhagavad Gita and was, more recently, told in the gospel story of

the Bible: There are five gates or doors to initiation (formerly three in ancient Atlantis) leading to mastery.

The first gate (initiation) is the Birth of the Christ principle (Love) in the cave of the heart, wherein you see a brother/sister in all humanity, starting at the lower-level recognition of brotherhood up to the heartfelt love manifested by all the Masters. This also connotes control of the physical vehicle and its impulses – food, recreation, procreation, security, etc. (examples include Walter Cronkite, Eunice Kennedy Shriver, Bruce Lee, Ted Kennedy, Michael Jackson, Liz Taylor, George Burns, John Lennon, Emily Bronte, Julius Caesar, and Nero). The physical vehicle was built over 6 million years in Lemuria, and its control has been achieved by approximately 850,000 members of humanity. Five to six million are now approaching the gates to initiation and will achieve it in their lifetimes, providing a huge boost to human evolution.

The second initiation is Baptism in the river Jordan – the control of the emotional/astral vehicle built in Atlantis. The emotional/astral vehicle at the cosmic level is water. Ascending to a higher level drops the lower levels down a notch; it is like when you're in elementary school and a 10th grader appears higher, more accomplished than you, but when you go to college and grad school, the 10th grade is seen merely as preschool. The astral vehicle, built over 12.5 million years (more developed), is the most difficult of the vehicles to control or subjugate because the emotions or second initiation is where most of humanity is polarized or imprisoned, but achieved by roughly 240,000 people. It is also the plane of glamour and illusion (called the 'fogs of illusion'). Examples include Albert Einstein, Thomas Jefferson. John F Kennedy, Martin Luther King, Isaac Newton, Charles Darwin, called the 'movers and shakers'). These two initiations constitute probationary members of the Hierarchy of which Maitreya is the Initiator (Hierophant) of the ceremony (think of fraternity/sorority or the Mason's initiations).

Importantly, the third initiation, the Transfiguration, represents the fire of mind (fire like the solar fire), which burns off the fogs of illusion, allowing you to see more clearly your pathway of ascent.

For Truth Seekers

Only 2,000–3,000 have scaled this height. It also represents the first true initiation, taken before God or Lord of the World, Sanat Kumara. The personality and soul are vibrating at comparable levels, thus allowing the soul to ‘download’ its wisdom onto its reflection – the lower self or personality. It also represents the transforming synthesis of the three vehicles of the personality – the physical, emotional, and mental vehicles – into a unified whole, controlled by the soul-infused personality (examples include Abraham Lincoln, Winston Churchill, Alice A. Bailey, Joan of Arc, John the Baptist, and Mozart).

The fourth initiation is the Crucifixion or Renunciation, which involves sacrificing everything you value, hold dear – your wealth, name, intellect, family, even life itself to follow the course of the soul, the real you; a mere 450 have made this level of sacrifice (examples include Helena P. Blavatsky (called HPB by her friends), Jiddu Krishnamurti, Sivananda of Rishikesh, Origin, Leonardo da Vinci, Helena Roerich, Jesus (Jesus is now a sixth-level Chohan (one cosmic level) – an Ascended Master}). Some have achieved higher levels of divinity since the lifetime in which they took the fourth initiation.

The fifth initiation, the Resurrection, represents the liberation from the pull of matter, of forms of all kinds, and the ability to travel to any place on the planet by merely using your thought to take you there. You join a fraternity of accomplished Beings Who have ascended to this level of perfection and higher (examples include Apollonius (formerly Jesus), Confucius, Krishna, and Djwhal Khul).

There are four more cosmic levels of attainment or levels of service, making the ninth degree the highest in our solar system. Masters who have taken at least one cosmic initiation are called ‘Ascended Masters.’ *Supermundane* takes you inside the ashrams (abodes or dwellings) of the Masters and you see the vital, endless work They do on behalf of us, our selfish lot, who refuse to share. But all that is about to change – not through force, but voluntarily. The Masters always respect the free will of humanity.

So, as our consciousness expands and we see the unfolding Earth drama with more clarity and detachment – a more inclusive vision – we see the soul operating in all our brothers and sisters, and we attempt to help them in whatever way we can, knowing that we're all together in this difficult Earth school. Seeing humanity with a more inclusive vision, seeing God in all humanity, in everything, whatever mask they may be wearing or curriculum role they may be playing, you see them in terms of their soul trying to instill awareness of the 'rules of the road' of evolution. So, be patient with them, don't judge them; leave that to the lords of karma. Both the planet (at the fourth of seven 'rounds' of planetary development) and humanity (the fourth kingdom) under the influence of Aquarian energies are at the stage of awakening to a more inclusive reality and are ready to transform our world, not destroy it. Many will not accept this inclusive reality, but the vast and growing majority will see it as the only way out of our dilemma, leading to the establishment of lasting peace and justice, through sharing as the way forward out of our self-created turmoil, division, and suffering. And, as we can see further than ever before, we can also see more clearly the path forward. More details of the Great Plan for planet Earth can be known, and we are shown how we can know and contribute to that evolutionary plan. The Great Plan is inclusive of universal laws and principles written and unwritten, which tell the story of the evolution of the human kingdom (one of seven kingdoms) and planet Earth itself, as a relatively insignificant but rising planet of the greater solar system.

All planets go through seven 'rounds' of development lasting millions of years that result in the planet being designated a sacred planet. Seven planets, including Mercury, Venus, Saturn, Uranus, Neptune, Jupiter, and Vulcan (made of invisible etheric matter located close to and hidden in the radiance of the sun), have achieved this status, while our planet Earth, a non-sacred planet, is awakening to achievement of the fourth 'round' or the midpoint of evolution along with Mars, Pluto, and Chiron (discovered in 1977 as Maitreya emerged into the everyday world), plus one other veiled planet (perhaps Quaoar – a hidden planet) as they move toward their destiny to become sacred planets, also called an 'awakening.' Planet
